

COLD PAINT SPRAYER ROAD LINE MARKING MACHINE

- A cold paint sprayer road line marking machine is a specialized equipment used for applying traffic lines and markings on roads, parking lots, warehouses, airports, and other paved surfaces. Unlike thermoplastic line marking machines, it uses cold paint (usually water-based or solvent-based) that sprays directly onto the surface without heating.
- Dimension : 110 x 75 x 92 cm / 110 kg

Name	Cold paint sprayer road line marking machine
Motor	Petrol
Power	Honda GX 160
Max Pressure	3300 psi
Max tip size	0.025"
Gun	2
Function	• Economy • One colour two lines • Cold paint spraying • Laser positioning • LED light
Max flow	3.0 LPM
Style of pump	Plunger
